- Communication and collaboration
- Problem solving
- Information and data literacy

## ***The Digital Wave***

**Younger Generation – the Second Project  
Direction**

Each year, the "Digital Wave" event is organized to mark Safer Internet Day.

This is a hybrid-format event, held both online and in person across all 60 municipalities.

Attracted over 80,000 participants, ranging from 7-year-old students to elderly seniors.

# Goals by 2028

- Train at least 176,000 seniors
- Improve daily life through enhanced digital literacy
- More than just a project
- Reduce the digital divide

By 2028, the project aims to equip at least 176,000 seniors with essential digital skills, reducing the digital divide and fostering a more inclusive, connected, and solidarity-based information society.

# **“No One is Forgotten”**

*The project is not only a helping hand for seniors but also a testament to national maturity. Where social solidarity and technological progress move forward together.*
