I had been a member of the supporting team during Croatian EU accession negotiation for the period 2005-2013. I was part of the teams drafting 2002 and 2008 Electronic Communications Acts and associated bylaws. I also participated in the development of Croatian state aid programmes for backhaul and access network which are currently entering the building phase. I participated and had a presentations on various conferences and seminars in Croatia, mostly with regulatory or radio communications themes. In 2002-2005 period I managed two large projects: Analogue/Digital Microwave System Replacement (5.500.000,00 €) and Construction of Earth Satellite System (2.500.000,00 €). I was HAKOM's representative on BEREC plenary meetings in 2011-2012 period.
