Dear all,

I submitted my comments to the BERC Public Consultation on Network Neutrality earlier. I just noted that my assistant had inadvertently converted an earlier version of my comments to pdf. As a result, I submitted the wrong version of my comments. I attach the correct version. I apologize for the confusion, and very much hope you can use this version of my comments for the proceeding. Please let me know if you have any questions.

Sincerely,
Barbara van Schewick
