**14.45-16.30 Stakeholder round table**

This session will be coordinated by MEA-WG co-chairs and will focus on the following questions for all stakeholders:

- 1) What are the consequences of gatekeepers' dominance on digital ecosystems for end-users' interests?
- 2) Does the DMA propose adequate tools to empower end-users in the European digital single market? Are end-users interests sufficiently protected in the proposal? Should additional principles or remedies be integrated to improve the consideration of end-users' interests in the proposal?
- 3) What role can European and national authorities play to define and enforce appropriate tools to empower and protect end-users? To what extent do different authorities (e.g. data protection authorities, consumer authorities, competition and regulatory authorities) need to work together to protect end-users' interests and implement relevant mechanisms?
