BEREC Office
mission & tasks

#empowering
EUconnectivity
Our main task is to provide the professional and administrative support to BEREC, contributing to the development and better functioning on the internal market for electronic communications networks and services, such as "roam like at home", open internet, intra-EU communications, 5G roll-out and many others.
We also

- Collect, exchange and transmit information
- Report on the developments in the European electronic communications market
- Establish and maintain registries and databases
- Manage the common information system
- Assist Working Groups
Our Internal Auditor is the Internal Audit Service of the European Commission

The compliance of our actions is verified by the European Court of Auditors

Our annual accounts are audited by an independent auditor

We cooperate with European Parliament, Council of the EU, European Commission and its services, other Agencies in the EU and Latvian Authorities.
Mission

The BEREC Office is an EU Agency supporting BEREC in the fulfilment of its mission to ensure the consistent implementation of the European regulatory framework for electronic communications.

To achieve this, the BEREC Office provides all necessary professional and administrative support for the work of BEREC, including financial, organisational and ICT services, and contributes to BEREC’s regulatory work for the benefit of people in Europe.
The guiding principles that lead us to achieve our professional objectives are as follows:

- Professionalism
- Efficiency
- Effectiveness
- Accountability
- Teamwork
- Diversity
