Organisational competences and skills

- Ability to build teams and cooperate within them;
- Strategic and analytical thinking;
- Organisational and result-oriented skills;
- Learning, self-development in various fields and adaptability;
- Proactivity and assertive communication.

Relevant activities

- intense, constant, sustained parliamentary activity, highlighted including by over 4,000 plenary speeches and over 80 legislative initiatives, especially in the social area (child protection, equal opportunities and gender balance, family, etc.), but also in areas aimed at strengthening central and local public administration and modernizing the state.
- contribution to the modernization of the legislative body, by developing the interpellation programs "Prime Minister's Hour" and "Minister's Hour"
- boosting the process of transposing the European Directives into the Romanian legislation.
- initiation of the procedure for amending the Statute of Deputies and Senators (2013)
- initiation of consultations on the drafting of the Rules for Deputies and Senators (2013) and of the Code of Conduct, with the aim of implementing the European principles into the national political and institutional culture
- supporting the broad collaboration between representatives of civil society, institutions and the Chamber of Deputies, in order to improve the quality of the legislative act by integrating the needs of citizens, the business environment and the main economic and social actors.
- conclusion of the partnership between UNICEF and the Chamber of Deputies, in May 2013, through which the two parties committed to support the observance, monitoring, implementation and promotion of children's rights in Romania.
- initiating the signing of the Cooperation Protocol between the Chamber of Deputies and the National Coalition for the Absorption of Structural Funds (October 2015) in order to develop a framework for constant and constructive dialogue on identifying the main administrative impediments faced by beneficiaries and improving legislation to stimulate the absorption of European funds.
- contribution to the elaboration and conclusion of the Partnership Agreement between the Chamber of Deputies and the Competition Council, signed in November 2015, in order to transfer the expertise of this body within the parliamentary committees and capitalize on it through amendments or legislative initiatives to encourage the competitive market
- contribution to rendering the legislative activity more transparent and to educating the public perception regarding the role of the Parliament, by initiating the Internship Program at the Chamber of Deputies
- activating the parliamentary dimension of diplomatic relations by organizing, in May 2014, in Bucharest, under the Romanian Presidency, the inaugural session of the SEECP Parliamentary Assembly, a forum for dialogue and cooperation between parliaments in the region
- representation of the Romanian legislative body in relations with foreign partners in order to develop bilateral cooperation relations, being signed Memorandum of Understanding between the Chamber of Deputies and the parliaments of Moldova, Israel, Ireland and Montenegro
- participation, in 2014, in the interparliamentary action to combat all forms of discrimination, xenophobia and racism on European territory, materialized by the signing of the Terezin Declaration.
- contribution to the setting up of a Working Group to identify opportunities for network convergence in Romania, bringing together line ministries, regulators and the main players in the fields of telecommunications and energy (November 2018)
- participation in the meetings of RIPE.net (Réseaux IP Européens) and ICANN.org (Internet Corporation for Assigned Names and Numbers), providing support in the field of international relations and understanding of regional legislation.
- collaboration to achieve the partnership with ENEA – Italian National Agency for New Technologies, Energy and Sustainable Economic Development, having as main objective the development of the EISAC (European Infrastructure Simulation and Analysis Centre) technology transfer project for modeling and simulation of multi-sectoral critical infrastructure systems on geographical areas, for the realization of a laboratory in the field, under the name EISAC.ro, within ICI, to enter ENEA's EISAC network (Italy, Netherlands, Germany, France)
