

BEREC external workshop about the usage of satellite technologies in mobile communications, 22 May 2024

1 Opening and welcome statement		09.10-09.20 CEST	
Wel	come and introduction	BEREC Co-chairs (ComReg/ACM)	
Ope	ning statement	High level representative of BNetzA	
2	Keynote remarks: hist	tory, stakeholders and partnerships	09.20-09.50 CEST
Key	note remarks	CEPT admin, BEREC, EC, ESA, GSMA, GSOA	
3	Thinking point session	n: context, angles, challenges	09.50-10.20 CEST
Pres	sentations	Handset perspective (tbc), Rohde & Schwarz, Nokia	
Disc	cussion with audience		
	10:20 CEST	Networking and coffee break	
4	Policy & regulatory st	atus: towards new frameworks (1)	11.00-11.15 CEST
Pres	sentation	Federal Communications Commission (FCC)	
Disc	cussion with audience		
5	Market access trends	of direct-to-device ecosystems (1)	11.15-12.15 CEST
Pres	sentations, Q&A	SpaceX, Deutsche Telekom, Another unmodified handse	t satellite approach (tbc),
		Another operator (tbc)	., , , , , , , , , , , , , , , , , , ,
	12:15 CEST	Lunch break	
	12.10 0201		
	12.10 0201	20.01.2.001.	
6		atus: towards new frameworks (2)	13.15-13.30 CEST
			13.15-13.30 CEST
Pres	Policy & regulatory st	atus: towards new frameworks (2)	13.15-13.30 CEST
Pres	Policy & regulatory sta	atus: towards new frameworks (2)	13.15-13.30 CEST 13.30-14.30 CEST
Pres Disc	Policy & regulatory sta	atus: towards new frameworks (2) European Commission	
Pres Disc	Policy & regulatory statementations Secussion with audience Market access trends	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2)	
Pres Disc	Policy & regulatory statementations Sussion with audience Market access trends Sentations, Q&A	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2)	
Pres Disc 7 Pres	Policy & regulatory statementations Sussion with audience Market access trends Sentations, Q&A	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat	13.30-14.30 CEST
Pres Disc 7 Pres 8	Policy & regulatory statements of the sentations sussion with audience Market access trends sentations, Q&A Thinking point session	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges	13.30-14.30 CEST
Pres Disc 7 Pres 8	Policy & regulatory statement of the sentations cussion with audience Market access trends sentations, Q&A Thinking point session sentations	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges	13.30-14.30 CEST
Pres Disc 7 Pres 8	Policy & regulatory statement of the sentations cussion with audience Market access trends sentations, Q&A Thinking point session sentations	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges	13.30-14.30 CEST
Pres Disc 7 Pres 8	Policy & regulatory statements of the sentations sussion with audience Market access trends sentations, Q&A Thinking point session sentations sussion with audience	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges The SHIFT project, Chipset perspective (tbc), ESA	13.30-14.30 CEST
Pres Disc 7 Pres 8	Policy & regulatory statements of the sentations sussion with audience Market access trends sentations, Q&A Thinking point session sentations sussion with audience	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges The SHIFT project, Chipset perspective (tbc), ESA Networking and coffee break	13.30-14.30 CEST
Pres Disc 7 Pres 8 Pres Disc 9	Policy & regulatory statements of the sentations cussion with audience Market access trends sentations, Q&A Thinking point session sentations cussion with audience 15:00 CEST	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges The SHIFT project, Chipset perspective (tbc), ESA Networking and coffee break	13.30-14.30 CEST 14.30-15.00 CEST 15.30-16.10 CEST
Pres Disc 7 Pres 8 Pres Disc 9	Policy & regulatory statements of the sentations of the sentations of the sentations, Q&A Thinking point session of the sentations of the	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges The SHIFT project, Chipset perspective (tbc), ESA Networking and coffee break	13.30-14.30 CEST 14.30-15.00 CEST 15.30-16.10 CEST
Pres Disc 7 Pres 8 Pres Disc 9 Pres 10	Policy & regulatory statements of the sentations and sentations. Market access trends sentations, Q&A Thinking point session sentations and sentations Thinking point session sentations	atus: towards new frameworks (2) European Commission of direct-to-device ecosystems (2) Iridium, Apple, Echostar, Viasat n: context, angles, challenges The SHIFT project, Chipset perspective (tbc), ESA Networking and coffee break	13.30-14.30 CEST 14.30-15.00 CEST 15.30-16.10 CEST optical coms (tbc)

BEREC External workshop about the usage of satellite technologies in mobile communications, 22 May 2024

We do not expect to have all the correct answers.... but we think it is the correct time to come up with the right questions. That is what this workshop is all about. Finding the relevant questions for BEREC and for National Regulatory Authorities. Therefore ...

We would like to ask each presenter to include at least one slide with potential regulatory issues or challenges, (current, emerging or future)

This may include issues or challenges that they observe, that they want to know more about or that they would like discussed now or in the future ...

As a starting point please find below a list of potential subjects, driven by discussions within BEREC:

- Use of 'unmodified devices', and interoperability of devices on the EU market, even if they are 3GPP compliant:
 - use of devices with multiple (types of) satellite communication ecosystems
 - o use of satellite communication ecosystems with multiple (types of) devices
 - o relation of devices and NTN and/or MFCN subscriptions
- Integration of SatCom into radio access Electronic Communication Services and market access and authorisation processes
- EU roaming issues (technical and regulatory)
 - o in the context of non-terrestrial networks ("NTNs") in relation with mobile/fixed communications networks ("MFCNs")
- Handover issues
 - o MFCN to NTN, NTN to MFCN, ...
- Other regulatory issues associated with NTNs in the context of the extension of mobile/fixed communications networks, such as
 - the use of satellite communication to reach emergency services
 - o the use of satellite communication as a backhaul for MNO networks in rural areas,
 - o as a fallback of existing backhaul solutions in case of disasters.
- Lawful intercept issues
- Ground station authorization issues
- Numbering issues
 - and impacts on the efficient management of the numbering resources
- Other related competition, consumer and environmental issues
